

S U C C E S S S T O R Y

Anyone involved in AA already has some measure of the SP9's success – because you can't go far without coming across one.

Why is the SP9 selling more than ever? Apart from its acknowledged reliability, there is still no other AA which can match its versatility of configuration or excellence of performance.

Add the dramatic benefits of Philips Analytical developments

like the Slotted Tube Atom Trap and Totally Pyrolytic Cuvette and it's clear there's no mystery element in this success story.

Why not help write the next chapter?
